For best sticking results try this on any notes with an environment friendly, water-based glue track:

Per ottenere il miglior risultato con colla a base d'acqua, seguire questi consigli:

Für optimale Klebresultate mit wasserbasierendem, ökologischem Leim machen Sie es wie folgt:

Lifting paper with a slight downward and sideward pull...

Tirando delicatamente il foglio di carta verso di se...
Ziehen sie das Blatt leicht gegen sich vom Blocks ab...

... stays flat like above

... il foglio resterà aderente alla superficie come sopra
... das Papier bleibt flach die Ecken stehen nicht auf

Lifting paper with a straight upward pull...

Tirando con forza verso l'alto...
Das Blatt stark über die Leimzone gezogen wird...

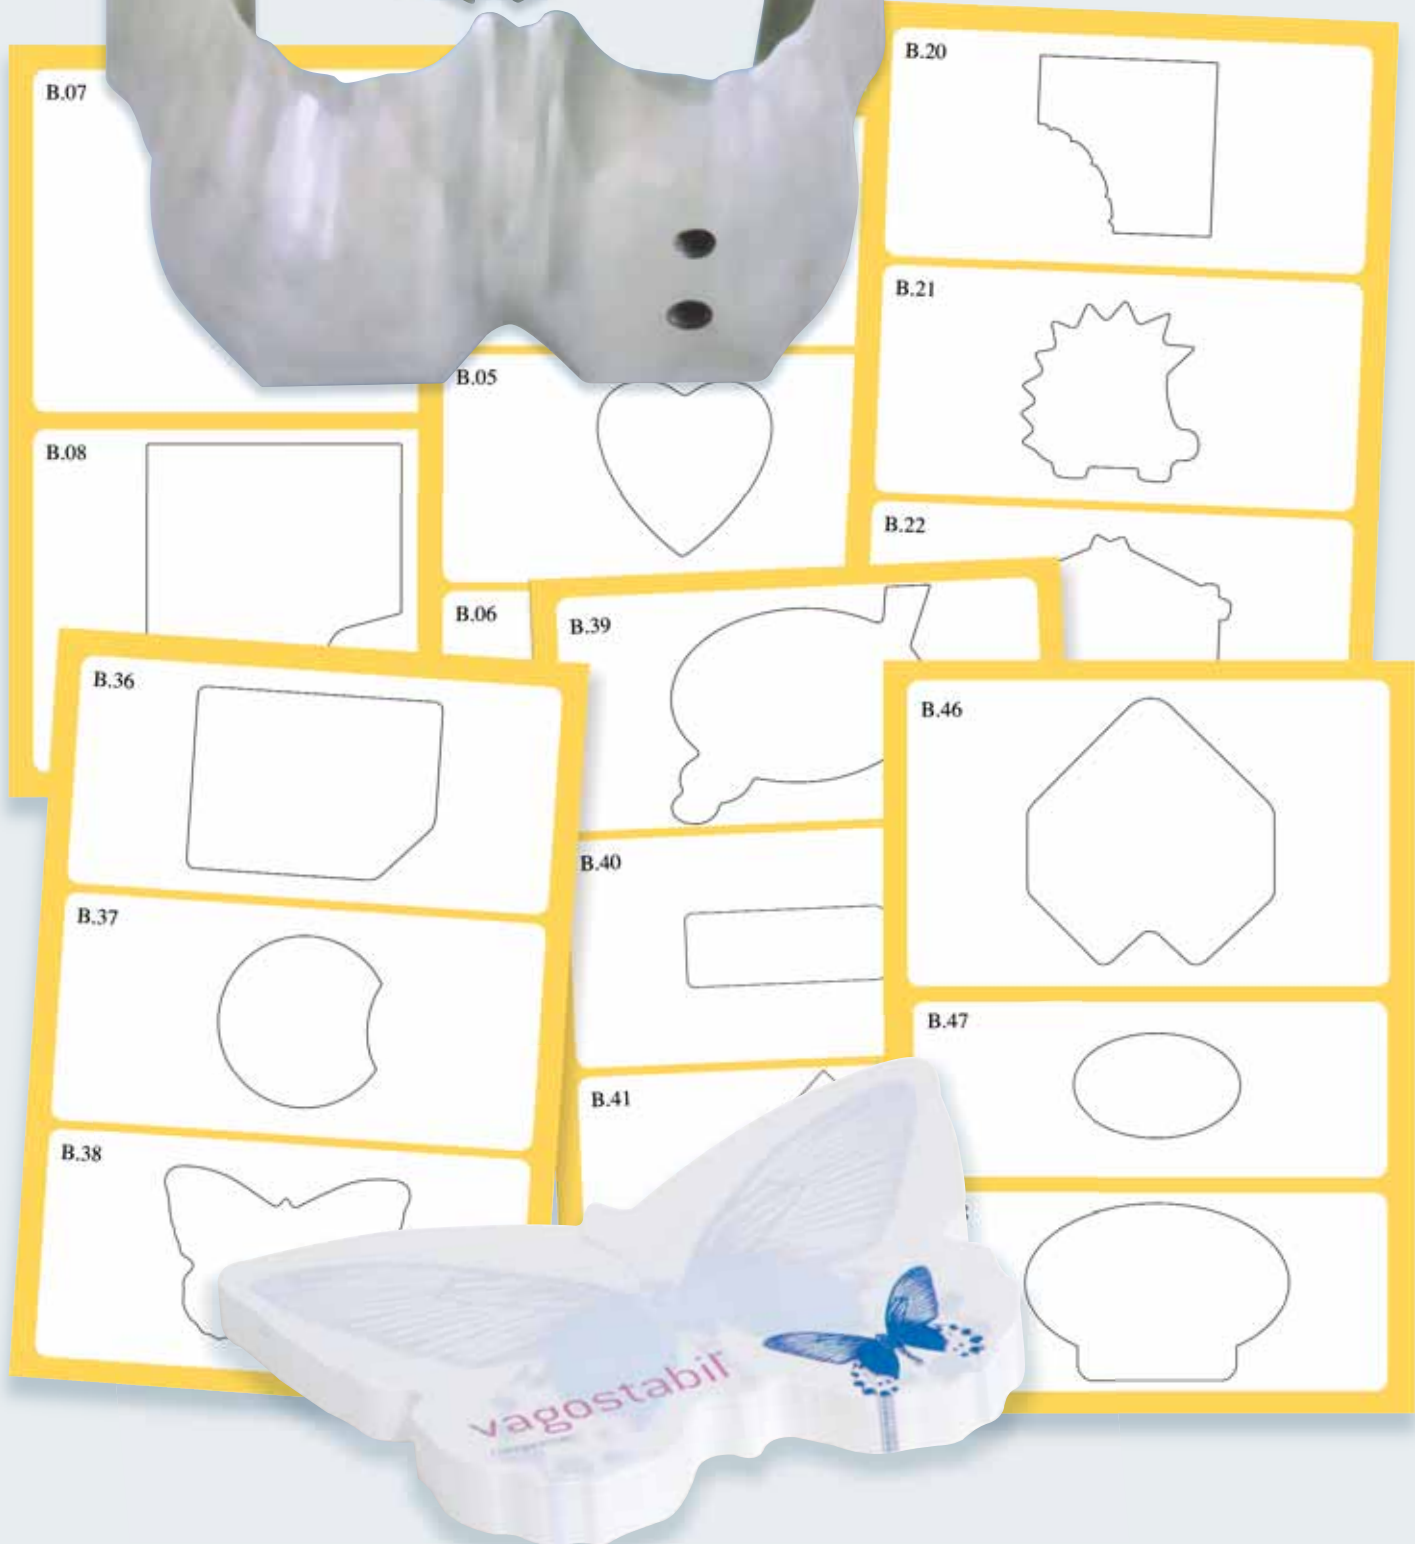

... curls like above

... il foglio si arriccerà come da immagine
... stehen Ecken auf, das Blatt rollt sich
